

## Optimize your Workbook in 1 day

### What is our Tableau 1-Day On-Site Coaching?

A well designed and optimized workbook is crucial to any Tableau environment. Over time your workbooks may evolve into an unstructured situation where there is a lack of performance and insight. Users become unsatisfied and you'll need specialists to develop reports and dashboards.

Praesto Consulting has the best practices, skills and expertise which are critical to make your Tableau environment as efficient and effective as possible. Let our consultants draw upon their experience and help you reducing cost, minimize risk, and accelerate time to full user adoption

### How will it be conducted?

Working alongside your technical team and/or your business users, our certified consultants provide value through a logical multistep approach. After the interview with the owner of the workbook(s), an analysis of the workbook is done and a new version with improvements is implemented and tested

## Why One Day On-Site Tableau Coaching?

### Why do you need it?

- ✓ Maximize your investment in Tableau.
- ✓ Improve the performance of your workbook.
- ✓ Fixing instable workbooks.
- ✓ Simplify reports and dashboards

### What will be provided?

- ✓ List of findings of the current workbook.
- ✓ Immediate changes to address specific issues.
- ✓ List of recommendations and improvements.

## How much will it cost?

€ 800,- excluding VAT

## Why Praesto?

- ✓ Praesto has **intimate knowledge** of Tableau Desktop and Server. We know how it can be leveraged to deliver the most value to your business.
- ✓ With **invaluable experience** in implementing Tableau we enable you to deploy a solution faster than you thought possible whilst avoiding the pitfalls.
- ✓ We have a **proven track record**, we are proud that Tableau see us as the "go to people" when they need to get things done right, first time.
- ✓ We insist on **nothing but the best** – by heavily investing in recruitment, strictly adhering to the highest standards and perfecting our own training we consistently produce the best consultants with deep industry knowledge.
- ✓ **We get things done** – using the most effective people mean fewer are required. Our highly focused teams are more agile and deliver faster to a higher standard.
