

Praesto Tableau Connect For Oracle EPM

Extending the delivery of Oracle EPM Management Data

What is Praesto's Tableau Connect for Oracle EPM?

Many organisations worldwide implemented Oracle Planning & Budgeting Cloud Service (PBCS) in their finance departments. Having invested significant time and resources in configuring PBCS, the finance team may have discovered that the dashboarding capability is very limited and that other teams and departments would dearly love to have access to some PBCS information.

At Praesto we're specialists in Tableau and Oracle EPM and we developed a solution to unlock the data held in PBCS so that information needed outside of the core finance team can be delivered as Tableau Workbooks.

How will it be conducted?

Installed and configured in one day, our consultants configure Tableau Connect for Oracle EPM to extract and map the data you need. You can create quickly Tableau workbooks and dashboards which can be distributed to your end-users.

Why Tableau Connect for Oracle EPM?

Why do you need it?

- ✓ Ensure full dashboard capabilities for your financial EPM data.
- ✓ Distribute financial information to other parts of the organisation.
- ✓ Enable management reporting of the financial planning process.
- ✓ Deliver enterprise wide financial EPM information as Tableau workbooks.

What will be provided?

- ✓ Implementation of the Oracle EPM ETL process.
- ✓ Setup Tableau Data Source for Oracle EPM data.
- ✓ Users trained/mentored on how to manage the ETL process and create Tableau workbooks.

How much will it cost?

Price upon request.

Why Praesto?

- ✓ Praesto has **intimate knowledge** of both Tableau and Oracle Hyperion. We know how it can be leveraged to deliver the most value to your business. We are uniquely placed to help you through your finance transformation journey.
- ✓ With **invaluable experience** in implementing Tableau with Oracle's EPM Cloud Services we shall enable you to deploy a solution faster than you thought possible whilst avoiding the pitfalls.
- ✓ We have a **proven track record**, we are proud that Tableau see us as the "go to people" when they need to get things done right, first time.
- ✓ We insist on **nothing but the best** – by heavily investing in recruitment, strictly adhering to the highest standards and perfecting our own training we consistently produce the best consultants with deep industry knowledge.
- ✓ **We get things done** – using the most effective people mean fewer are required. Our highly focused teams are more agile and deliver faster to a higher standard.
