

Praesto Migration to Tableau Package

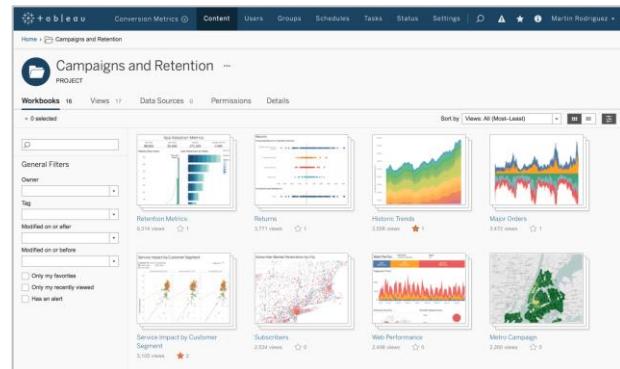

Migrating to Tableau quickly

What is our migration to Tableau package?

You might be in a period of uncertainty regarding your current business intelligence environment. Maybe you're dealing with new versions which need complex migration paths or your current traditional BI vendor is not supporting your needs. Praesto created a service pack to help you migrate your current content smoothly to a Tableau environment. Our replacement package to Tableau is a structured approach to replace your current business intelligence tooling into a modern self-serviced future-proof Tableau environment and includes:

- ✓ Creating a tailored migration plan.
- ✓ Installation/configuration of prerequisite software.
- ✓ Installation/configuration of Tableau software.
- ✓ Migrate 10 reports/dashboards in Tableau.
- ✓ Configure/Implement the security settings.
- ✓ Develop a self-service migration instruction.

How do we do this?

First, we create a tailored migration plan and make the Tableau environment ready by installing and configuring the software. Secondly, we migrate a limited subset (10) of the reports/dashboards and implement the security settings. As a result we'll deliver a migration instruction for your users so they can migrate the rest of the reports/dashboards.

Why a migration to Tableau Package?

Why do you need it?

- ✓ Ensure a complete, successful and rapid migration to Tableau.
- ✓ Optimize your new Tableau environment to the specific needs of your organisation.
- ✓ Avoid the pitfalls of a BI migration.
- ✓ Smoothly switching from your old vendor to Tableau.

What will be provided?

- ✓ Migration plan with an inventory of all reports.
- ✓ Installed Tableau environment ready for operations.
- ✓ 10 migrated reports/dashboards.
- ✓ Tailored Migration instruction (Self-Service Guide) how to migrate the rest.
- ✓ 5 days of mentoring during the migration

How much will it cost?

€ 9.000 excluding VAT

Why Praesto?

- ✓ Praesto has **intimate knowledge** of Tableau Desktop and Server. We know how it can be leveraged to deliver the most value to your business.
- ✓ With **invaluable experience** in implementing Tableau we enable you to deploy a solution faster than you thought possible whilst avoiding the pitfalls.
- ✓ We have a **proven track record**, we are proud that Tableau sees us as the "go to people" when they need to get things done right, first time.
- ✓ We insist on **nothing but the best** – by heavily investing in recruitment, strictly adhering to the highest standards and perfecting our own training we consistently produce the best consultants with deep industry knowledge.
- ✓ **We get things done** – using the most effective people mean fewer are required. Our highly focused teams are more agile and deliver faster to a higher standard.
